Each year from 1999 to 2008, there will be five State Quarters released (one approximately every 10 weeks) in the order that each state ratified the Constitution or joined the Union. The reverse of each State Series Quarter will depict a scene honouring that state. There will be two coins from each state. One will be from the Philadelphia mint and the other from the Denver mint. Unitrade is stocking a selection of quarter holders for those collectors looking for quality holders for their US coins. The 10-year series will consist of one hundred quarters in all.
