POCKET/DESK MAGNIFIERS

PEAK LIGHT LOUPES

In most cases, extra illumination on an object greatly aids vision. Flash magnifiers operate like flashlights pointing light directly on the object being viewed.

3.5X Light Loupe

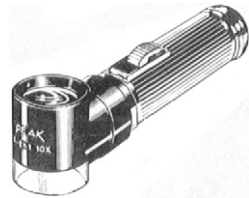

The finest flash magnifiers available - top quality optics with unique functional designs. These units feature a built-in lighting device that works from a pair of 1.5V batteries (not

included). Powerful, convenient and lightweight, the flashlight is made of metal and the crystal-clear lens is shielded by a hard, high-impact styrol. Large 2" square lens with built-in angled light source

MAG1987 3.5X Light Loupe 56.95

10X Light Loupe

With its excellent performance and smart appearance, the Peak Light Loupe 10x is a solution to the problem often found in using a conventional magnifier in a dim place. The flashlight case is made of metal and the crystal-clear lens is shielded by a hard plastic holder. Uses 2 - 1.5V batteries (not included).

MAG1966 10x Light Loupe 44.95

CARTON LOUPE

Achromatic Loupe

Loupe enclosed in a chrome plated brass frame. It is housed in a vinyl case.

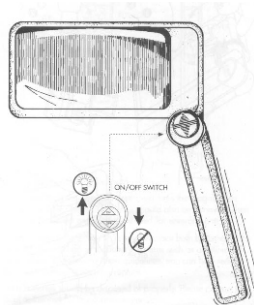

MAG2064 20X, 15mm lens 61.95

BAUSCH & LOMB Compact Lighted Magnifier

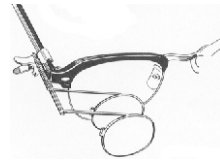

Illuminated Magnification in a convenient size perfect for pocket, briefcase, purse or glove box. Take it anywhere. Stores in its own protective case. Push buttons first to release the large 2 inch lens. Again, to light the lamp.

Ideal for reading in low-light conditions, or where convenience is important. Batteries included (2 AAA).

MAG9013 2X 52.95

BAUSCH & LOMB Eyeglass Loupes

Lightweight and easy to wear, Bausch & Lomb Eyeglass Loupes clip to the side of eyeglasses and swing up out of the way when not in use. They are available in a complete range of powers from 3X through 7X.

MAG4137 Eyeglass Loupe 5X . . . 71.95

STAND LOUPES (fixed focus)

PEAK

5X Loupe

This very practical magnifier has a tall acrylic base which allows plenty of light to fall on the object to be magnified. 25 mm lens.

MAG1960 Peak 5X loupe 16.95

8X Loupe

The Peak 8X magnifier is a high performance, well-designed magnifier. The magnifier is specially made to cover the entire 24 mm x 36 mm picture area of single frames of 35mm film. It is ideal for checking negatives.

MAG2018 Peak 8X loupe 56.95

Telecentric Loupe

Special purpose loupe that will measure the length of an object with the affixed transparent glass scale. The magnifying optical system of this loupe is not conventional in that you can measure the length or width of not only flat objects but also three-dimensional ones such as small spheres, cylinders, etc., without the error caused by parallax.

MAG1999 Peak Telecentric Loupe 7X 260.95

Mini Comparater 7X

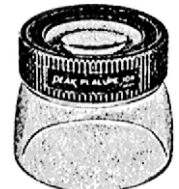

The Peak Mini Comparater 7X is a handy and accurate optical measuring instrument composed of a combination of lenses and a scale. The doublet type achromatic lens gives very sharp resolution. The magnifier has a multiple-threaded lens to allow for smooth focusing.

MAG2015 Peak Mini Comparater 7X 72.95

Plalupe 10X

An all purpose magnifier that lets plenty of light on the subject. Two lenses give sharp detail. A very economical magnifier for the hobbyist.

MAG2032 Peak Plalupe 10X 15.95

Sucking Loupe 10X

An ideal magnifier for use on large studio cameras. The magnifier has a rubber suction attachment which will adhere to the focal pane glass by vacuum suction. It can be easily detached after focusing has been completed.

MAG1993 Peak 10X 36.50

POCKET/ DESK MAGNIFIERS

STAND LOUPES (fixed focus)

PEAK

15X Loupe

A very handy double lens magnifier. Ideal for detecting flaws or repairs in stamps. A top quality magnifier for those needing the extra magnification. 20mm lens.

MAG1962 Peak Loupe 15X 35.95

30X Loupes

The perfect magnifier for engineers in photo-mechanical and precision machining works. The loupe is composed of four lenses in two groups. It is designed to give the widest image field when the hood of the loupe is pressed tightly against the user's face with one hand while the other hand holds the object to be inspected and adjusts its distance from the loupe for focusing. Small and lightweight for easy use.

MAG1996 Peak Loupe 30X 81.95

U-A MAGNIFYING LAMPS

U-A MAGNIFYING LAMPS provide many advantages over conventional desk lamps. The sturdy, extendable, enamelled-steel arm permits precise positioning of the lamp above the working surface. The circular 22-watt fluorescent tube provides uniform illumination of the work area, while the 5" diameter lens offers 3X magnification for all your fine-detail jobs. All lamps are equipped with a 3-conductor cord set.

BASELESS MODELS can be clamped to desk or drafting table to provide the illumination and magnification required for close-up inspection of stamps, coins, circuit boards, intricate drawings, needlework, miniature models, fine print, or any other fine-detail job. The uses for U-A Magnifying Lamps are endless.

LTS-120 Baseless Magnifier Lamp

This adjustable magnifier lamp has an extra-long 45" reach. Equipped with a 22-watt circular tube and a G-Clamp for easy installation on desk or drafting board, the LTS-120 can also be fitted to an SB90 for attachment to any non-horizontal surface.

Available in white, ivory or black.

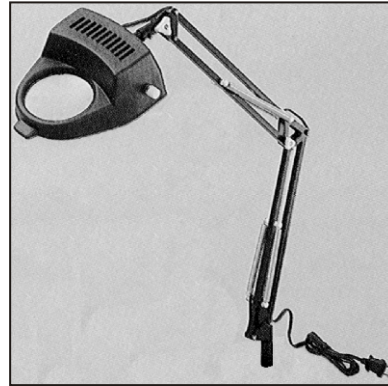

LTS-120 99.95
Replacement Tube, 22W 16.95

LTS-120B Magnifier Lamp

Like the LTS-120, this is a fully-adjustable lamp. Equipped with a weighted base, the LTS-120B has a 36" reach. Complete with a 22-watt circular lamp. Available in white, ivory or black..

LTS-120B 129.95
Replacement Tube, 22W 16.95

LTS-112 Baseless Magnifier Lamp

Available in black only, the LTS-112 is equipped with an optically-ground, 3-diopter glass lens and a D-Clamp for easy attachment to any desk, table or drafting board. The LTS-112 has a 32" arm with a flexible wrist, and operates on a 60-watt bulb (not included).

LTS-112 **NEW PRICE** . . . 24.95

U-A LAMPS

SL-113 Baseless Combination Lamp

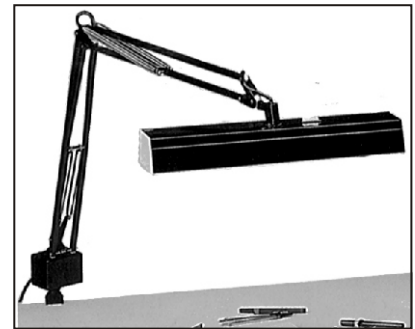

This combination lamp offers the advantage of varying the type of illumination to match the requirements of the job. The aluminum reflector contains sockets for both a 75-watt incandescent bulb and a circular, 22 watt-fluorescent tube. A 3-way switch enables the lamp to be used as an incandescent reading lamp, a fluorescent lamp,

or a combination of both to produce natural daylight. 45" reach and aluminum shade. Complete with G-Clamp for easy attachment to any desk, table or drafting board, and a 22-watt circular light tube. Available in white, ivory or black.

SL-113 99.95
Replacement Tube, 22W 16.95

LTS122 Baseless Twin Fluorescent Lamp

A precision-built, quality lamp of metal construction with a 45" reach and a heavy-duty chrome spring, the LTS122 offers maximum adjustment and stability. The heavy duty metal shade comes fitted with two 15-watt

fluorescent tubes (one daylight, one cool light) for maximum even distribution of light. Also provided is a G-Clamp for easy attachment to any desk, table or drafting board. Available in white, ivory or black.
