ANCIENT

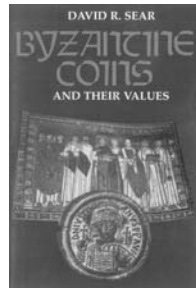

BYZANTINE COINS AND THEIR VALUES

New edition, revised and enlarged

David R. Sear

An invaluable guide to the whole of the Byzantine series and already a standard reference work. It covers the period from Anastasius I (491–815) until the capture of Constantinople by the Turks in 1453. The later Palaeologan period has been completely revised by Simon Bendall and Michael O'Hara has contributed a detailed appendix on gold forgeries. Over two and a quarter thousand coins in gold, silver and bronze are listed, valued and illustrated with more than six hundred photographs giving a virtual type catalogue of the Byzantine series.
