
SIZE CHART FOR HAWID AND U-A “S” MOUNTS

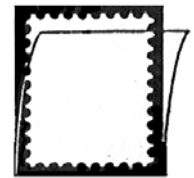

To find the correct size of mount required

Place the stamp on the bottom line.

Move the stamp along the bottom line until the perforated top of the stamp touches the framing line on one of the guide bars.

STAMP MOUNTS

STAMP MOUNTS – HAWID – TOP OPENING

Completely safe for mounting all stamps, To adhere just moisten back of mount. Hawid mounts are made of a pure polystyrol foil without chemical softeners. Open on three sides, they allow the necessary air circulation. Hawid mounts are available with black or clear background. They give maximum protection and display all stamps to their best advantage.

STAMP MOUNTS

STAMP MOUNTS - SCHAUFIX by Hawid – CENTRE OPENING

This mount was originally marketed under several different names in Europe including Id mounts, Stanley Gibbons Gard Mounts, Safe Tabs and SCHAUFIX. In other countries, including North America, the new mount was marketed by a U.S. firm under the name of SHOWGARD.

But make no mistake about it - all these mounts, including SHOWGARD, have always been and still are manufactured by HAWID! Only the packaging differs.

SIZE CHART FOR SCHAUFIX AND U-A "G" MOUNTS

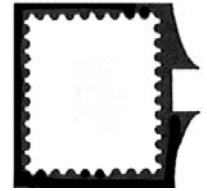

All stamps can be measured for the proper size by sliding the stamp along the base bar until it is "wedged." The illustration shows a correct fit for size No. 41. If there is no precise fit, it is perfectly proper to gauge the other dimension of the stamp and mount accordingly.

STAMP MOUNTS

UNI-SAFE "G" STAMP MOUNTS – CENTRE OPENING
